EFIS Rewrite Project

In the 2018 Legislative session, funding was approved for the EFIS Rewrite Project.

What is the purpose of the EFIS Rewrite?

- EFIS has not been updated since 2007
- Bring the application up to modern software and security industry standards
- Improve functionality and efficiency for users
- We have gathered feedback from district EFIS users and internal users with suggestions on how to improve the system
- We created detailed project requirements for IT staff

What EFIS changes can we expect to see?

- New Single Sign-On Feature
- Improvements to every EFIS module
- Re-architected for faster speed
- Re-evaluation no longer required – real time
- Mobile enabled

What EFIS changes can we expect to see?

User Interface (UI) provides greater flexibility and quicker access to error reporting

- Dashboard
- Menu moved to top – Left to Right
- Less number of clicks, move between pages
- Wizard load of related components
- Auto closing message boxes
- Pagination

How Does EFIS Work?

- SSO (Single Sign-On) authorization for EFIS provides UI access
- EFIS works like the old EFIS application with new look and feel, new features
- Districts provide file uploads via TIBCO® (secure FTP) – Architectural Files, form 208A may be uploaded

Getting Started

1. Setup of SSO accounts and EFIS authorizations
 - For access to the SSO/EFIS portal and resources
2. Setup TIBCO[®] (secure FTP) credentials
 - For upload of files

Supported Browsers

Google Chrome

Firefox

Internet Explorer

FDOE Single Sign-On

The Single Sign-On (SSO) Portal provides users within Florida's educational community with a convenient way to log into multiple state resources with one account.

WORK PLAN - EXPENDITURE

Current Work Plan: 2018 - 2019 BROWARD COUNTY SCHOOL DISTRICT

MAINTENANCE EXPENDITURE (1) 

LOCAL EXPENDITURE (16) 

Expenditure for Maintenance, Repair and Renovation from 1.5 Mills and PECO [Export to Excel](#)

Mark As Complete

PREPARATION OF TENTATIVE DISTRICT FACILITIES WORK PROGRAM

Annually, prior to the adoption of the district school budget, each school board must prepare a tentative district facilities work program that includes a schedule of major repair and renovation projects necessary to maintain the educational and ancillary facilities of the district. The "Expenditure for Maintenance, Repair, and Renovation From 1.5-Mills and PECO" screen assembles and groups information regarding major maintenance and repair projects; the first year column must be the same as the current year school board approved capital outlay budget for projects. Districts can specify multiple 'Other' categories to describe and identify locally defined projects and funding amounts.

Current year 2018-19.

Projected years (this should be expenditure amounts projected for each year 2019-20 through 2022-23).

Item	Location	Actual Budget 2018-19	Projected 2019-20	Projected 2020-21	Projected 2021-22	Projected 2022-23	5 Year Total
HVAC	Choose Facilities	\$0	\$0	\$0	\$0	\$0	\$ 0
Flooring	Choose Facilities	\$0	\$0	\$0	\$0	\$0	\$ 0

CLASS SIZE REDUCTION PLANNING (10)

SCHOOL CLOSURE PLANNING (13)

Class Size Reduction [Export to Excel](#)

Mark As Complete

Provide a narrative description of plans that the district has to reduce the need for permanent student stations over the next five years. The plans must be approved by the school board and address the methods that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multi-track scheduling, grade level organization, block scheduling, or other alternatives.

Ten Year Maintenance [Export to Excel](#)

Mark As Complete

The "Ten Year Maintenance and Repair (20)" screen identifies district projects and locations regarding the projected need for major renovation, repair, and maintenance projects within their district in years 6-10 beyond the projects plans detailed in the five years covered by the work plan. This screen also allows districts to enter a schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the 5-year span immediately beyond the plans contained in the five-year work program. This screen allows users to enter locations, capacities, and planned utilization rates of future educational facilities in the district, and collects information regarding the projected need for major renovation, repair, and maintenance projects for years 6-10 beyond the plans detailed in the work plan.
