

# APPLICATIONS FOR **CAMPUS GIS**

---

WINTER FEFPA 2022

**SUZANNE WYNN**  
*ALACHUA COUNTY SCHOOLS*  
**JOHN GILREATH, GISP**

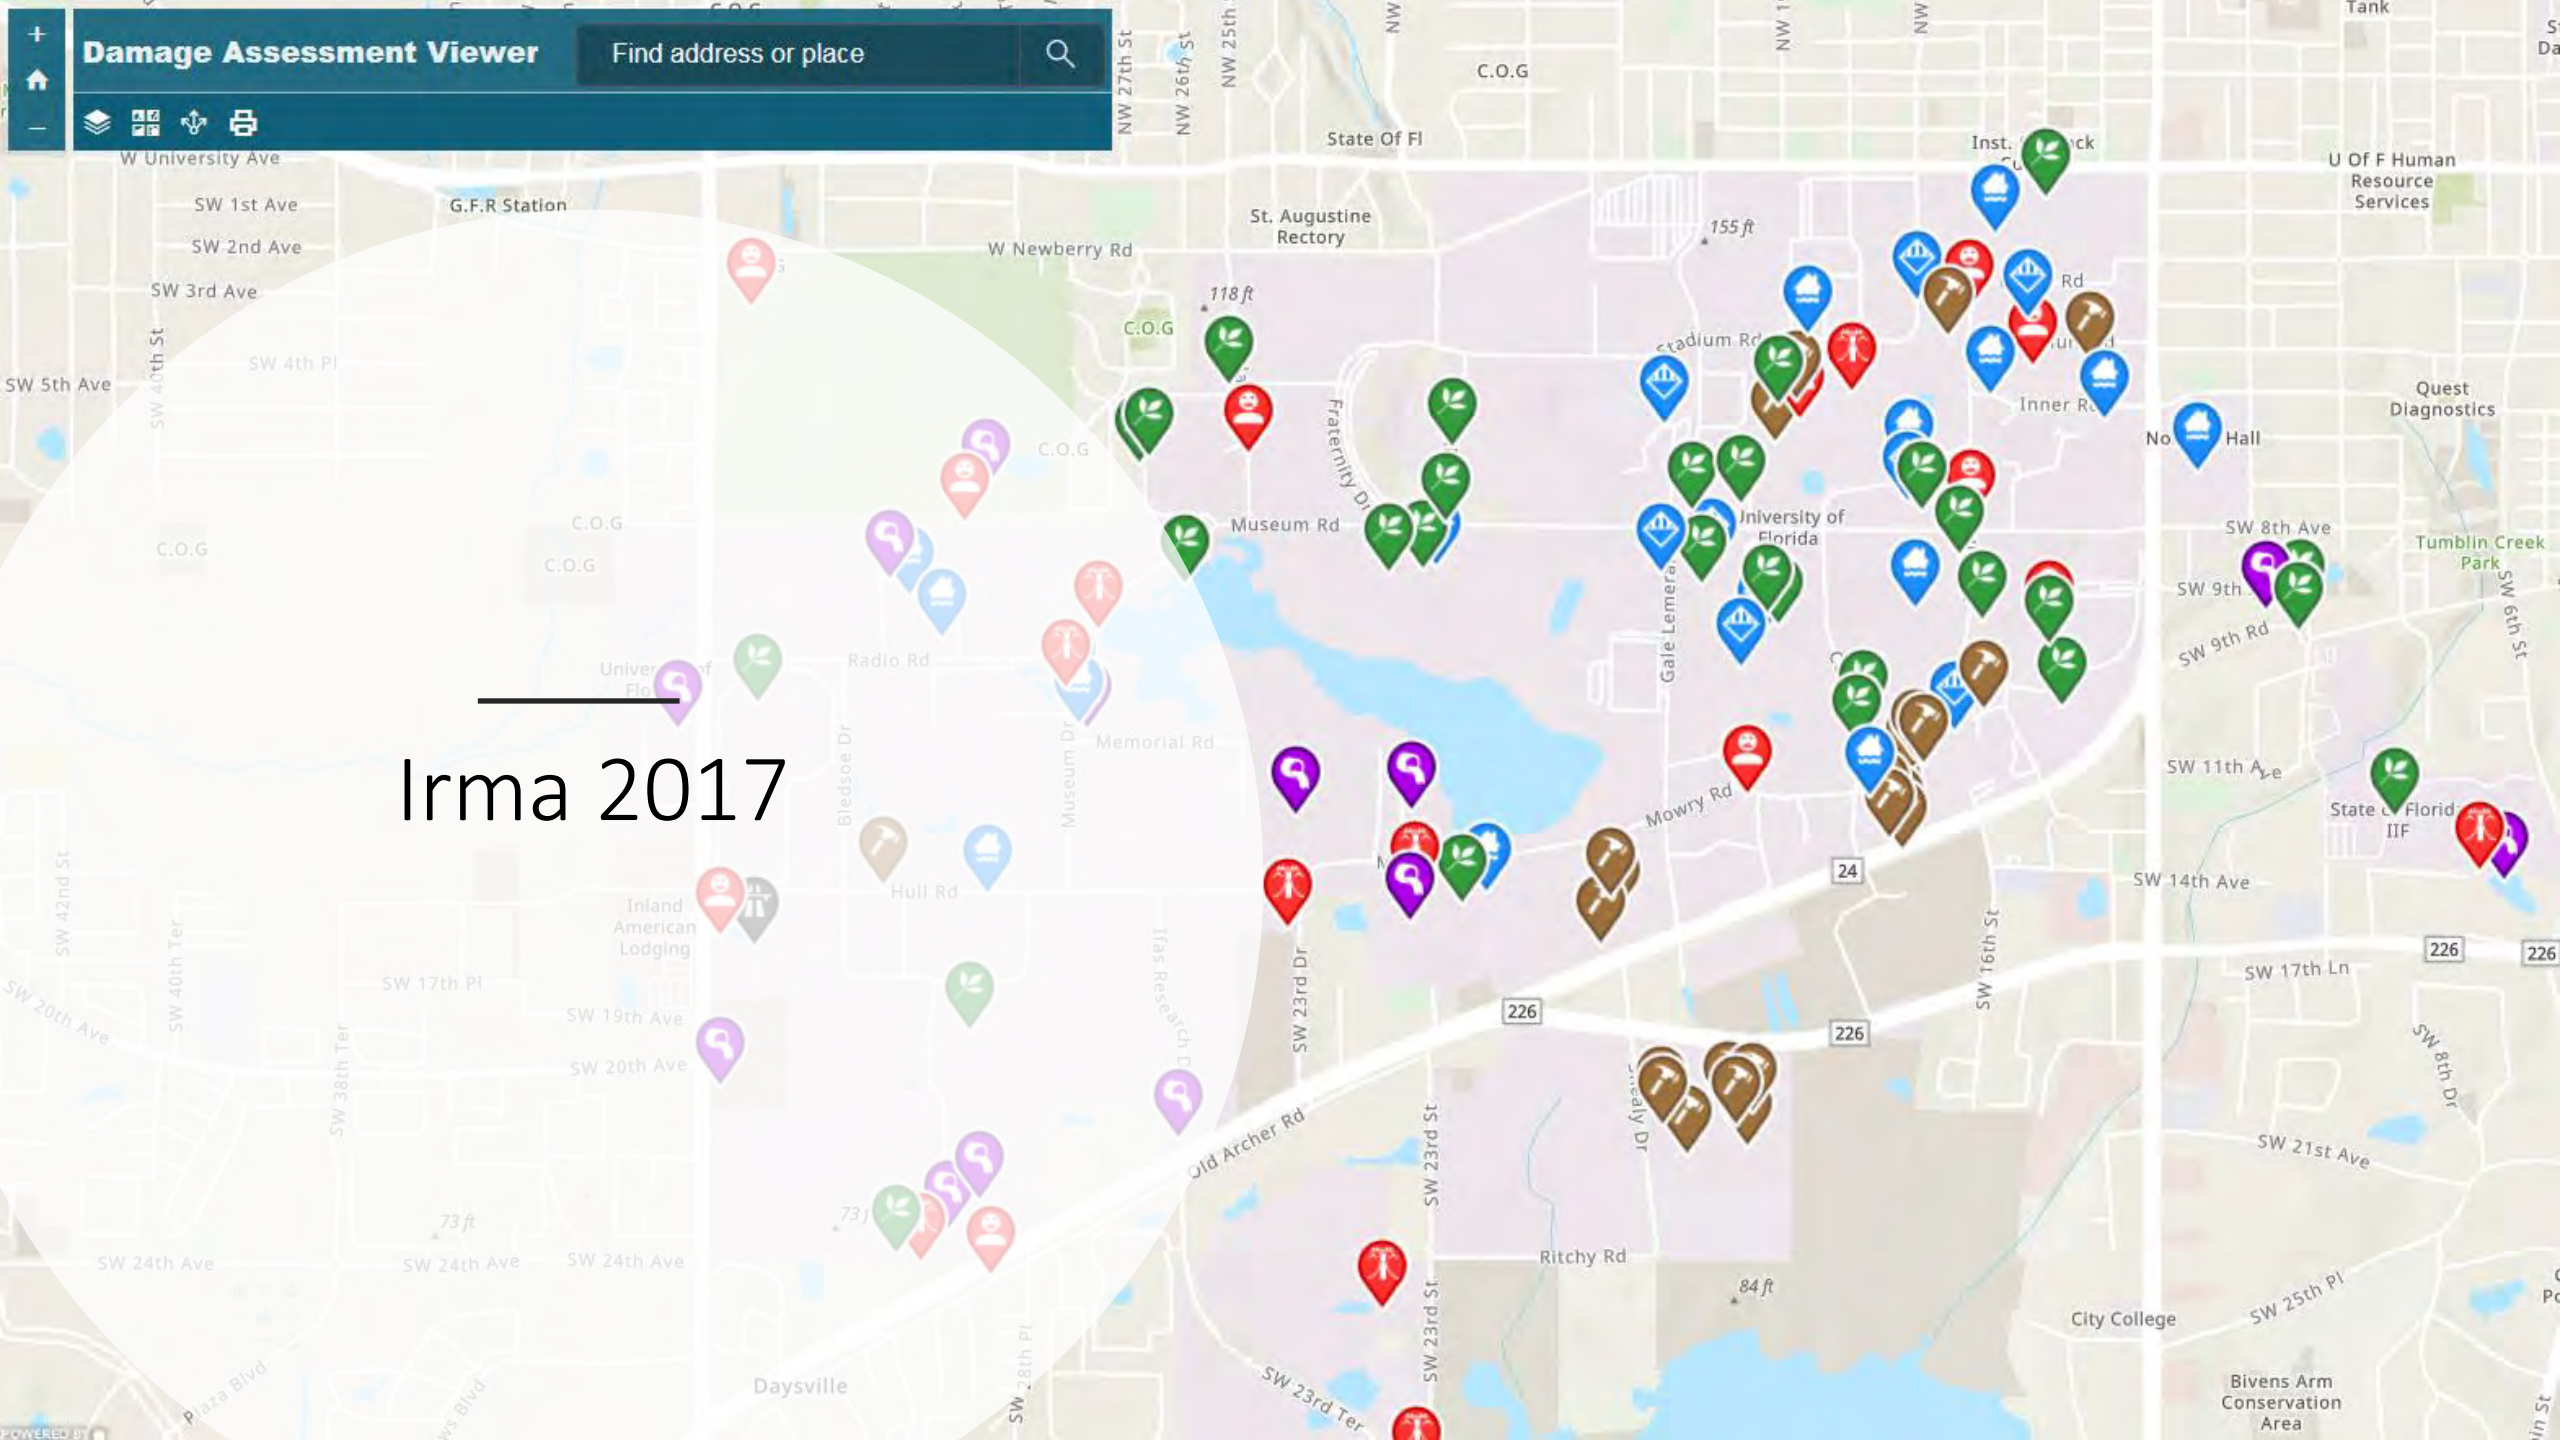

---

Irma 2017

# GIS is a Platform for Analysis

- ESRI is a \$6 billion privately-held software company
- Dozens of extensions and add-ons to your basic license purchase
- Simple, Scalable, Sustainable

# GIS is a Platform for Analysis

*“I’ve had coursework in GIS”*

*“It’s a tool for what I do”*

*“It isn’t accurate enough”*

Existing utility survey data from CAD

# A Brave New World Driven by Data

- GPS clock – 6 major base stations globally that affects all major branches of industry, finance, and defense
- Citizens, countries, and corporations
- State and federal allocations
- Regulatory & reporting metrics

# Changes in the Geospatial World

- Web Design and Development
- Database Management
- BIM
- Remote Sensing
- Artificial Intelligence

USF Sun Center LiDAR

# Applications Across K-12 and Higher Ed

## K-12

Redistricting & Rezoning  
Additional Uses

## Benefits of ArcGIS Online

Free\*

## Higher Education

Overall Considerations  
Campus Specifics  
Case Studies

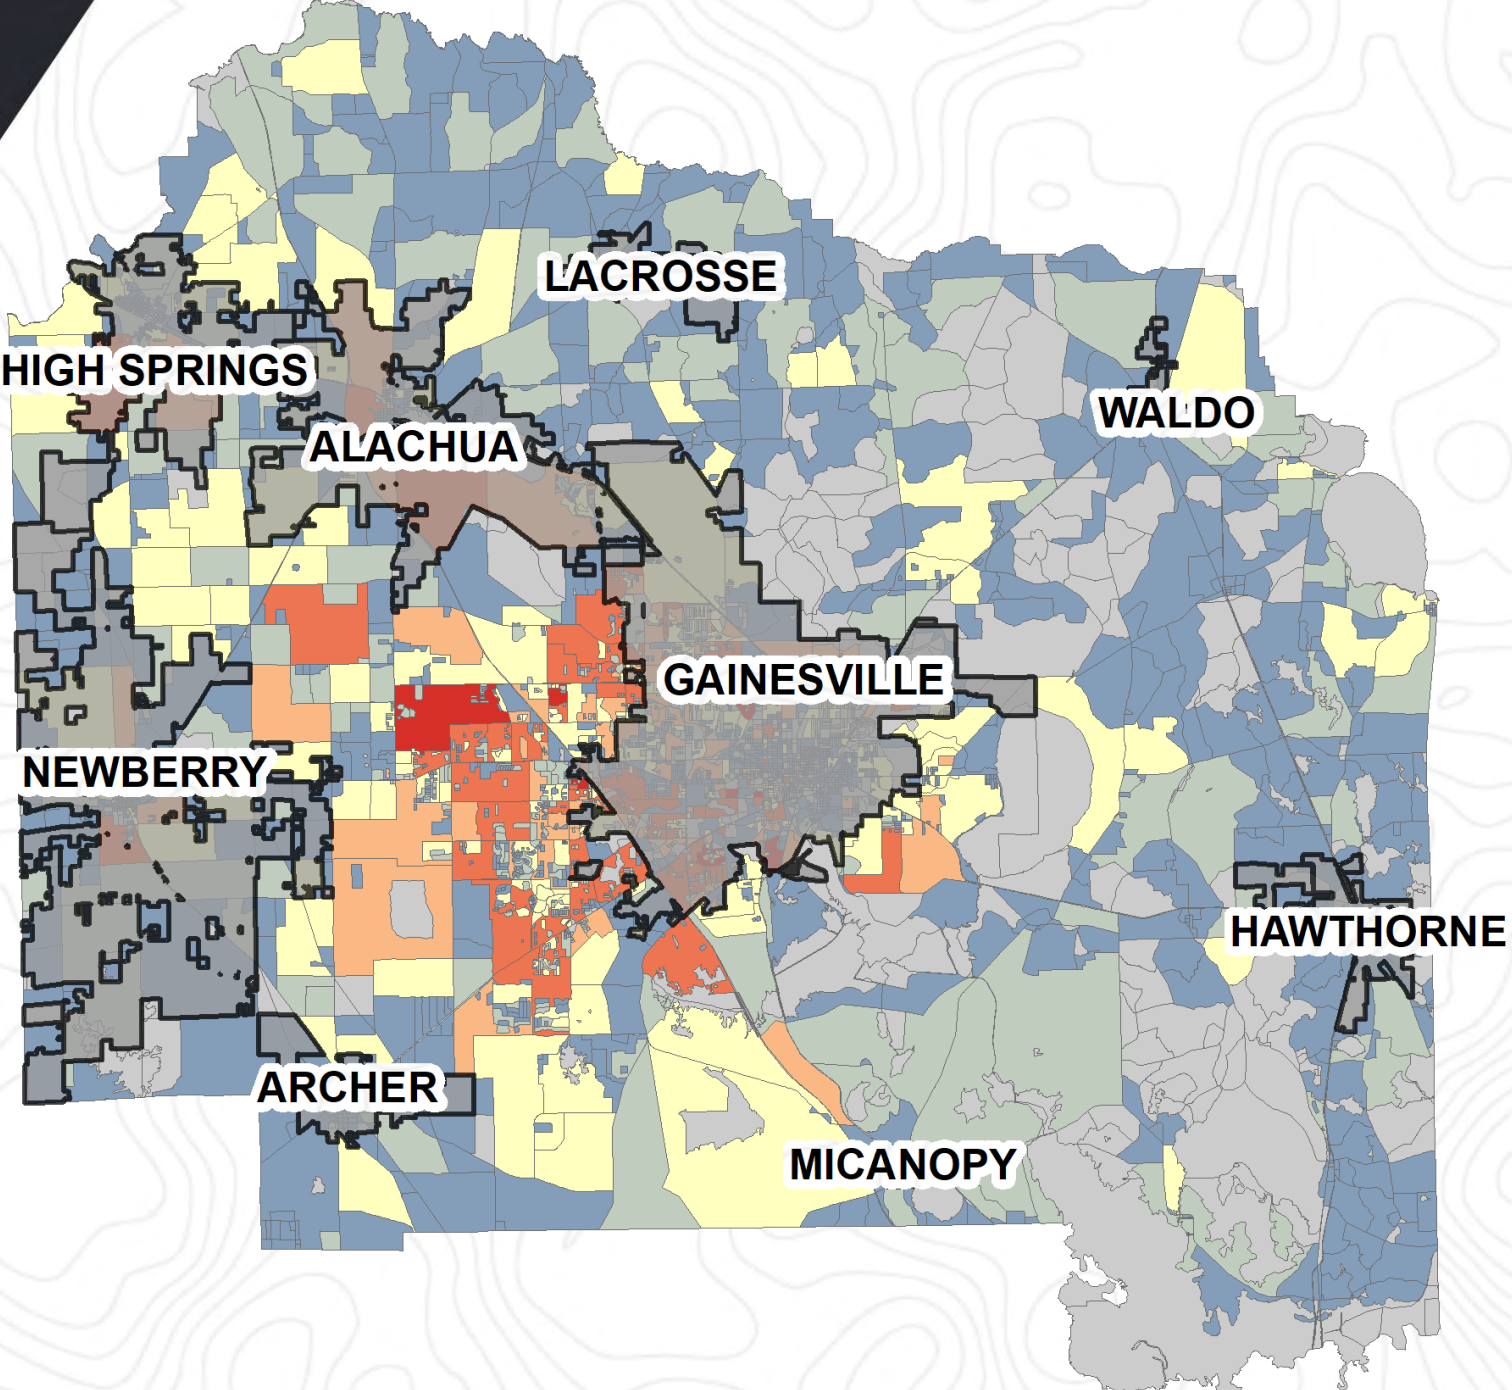

# 2020 U.S. Census Total Population (Census Block)

**Total Pop.**

# 2020 U.S. Census Total Population and Municipalities

# 2020 U.S. Census Total Population and Current SBAC Districts

## Total Pop.

# Specific Goals

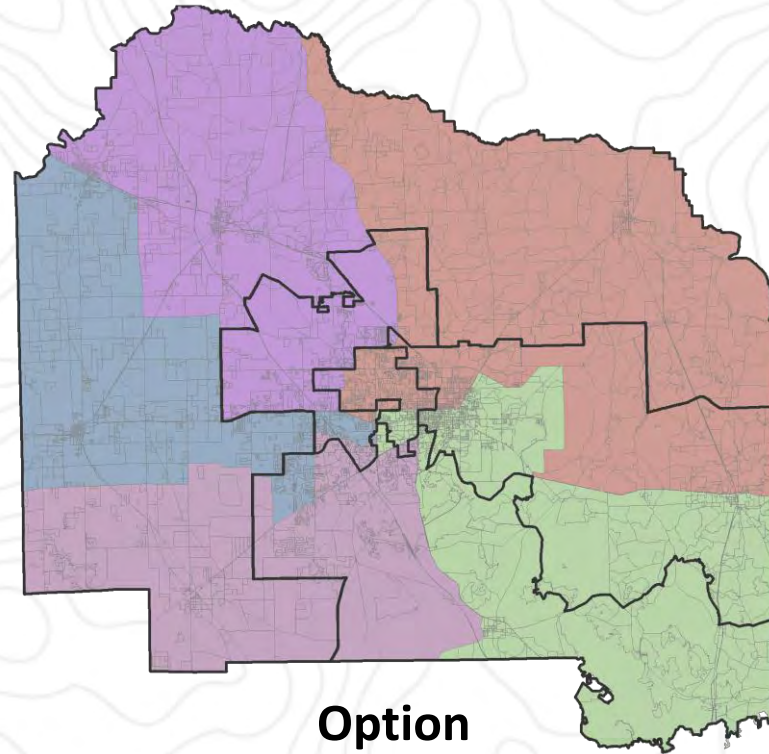

- Create compact, contiguous, and community districts
- Total Population Balance
- No Current Member Exclusions
- Interactive Map

District	Population
5	63,510
3	63,252
1	61,486
4	45,629
2	44,598

# Three Final Considerations

District

```
run_task/AddressDatabaseValidation
  /Address Data Management
    >Attendance System
    >Transportation System
  r/Validate address ranges
    insert_E911
      call_Address
      call_E911 Streets
    add_Property Appraiser
      call_Parcel
      call_Address Points
task/AddressDatabaseValidation done
```

# Student Address Density 2015-22

- K- 12 Student Addresses
- Geocoded and joined to student info
- Created for school programs and demographic data

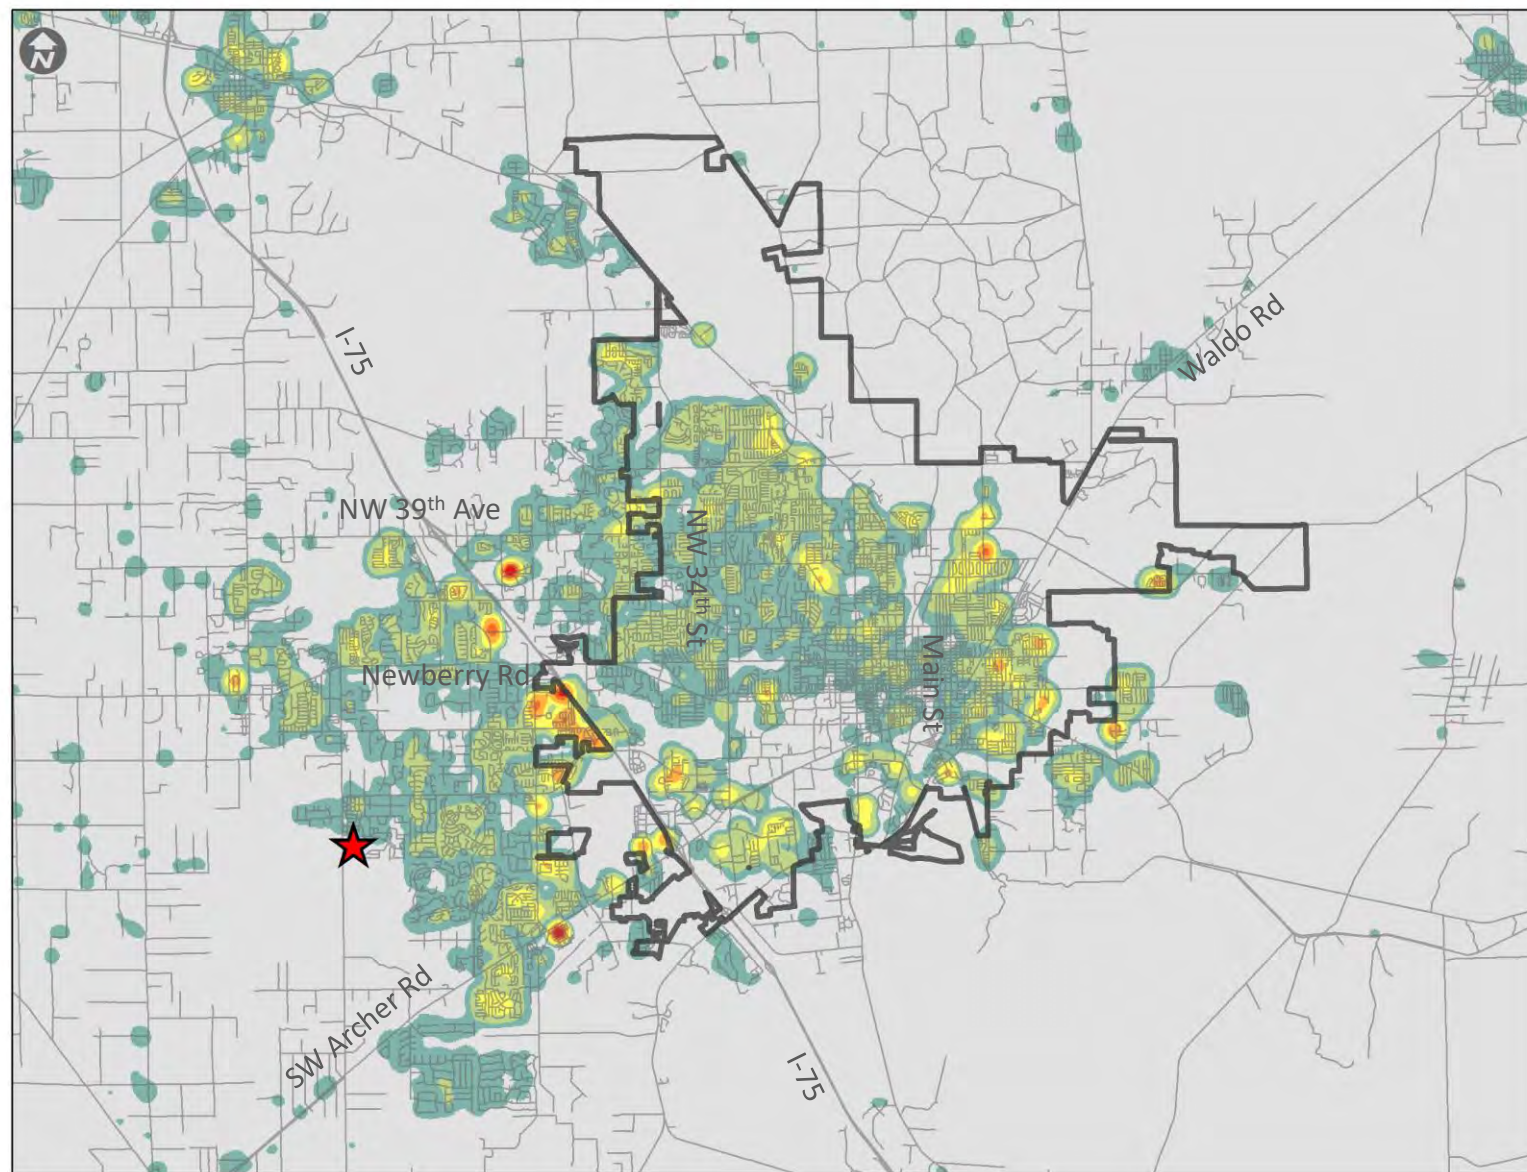

• ***Schools***

# Student Address Density 2015-22

- ¼ mile search
- District-wide
- Public Schools
- Charter Schools
- Home Schooled

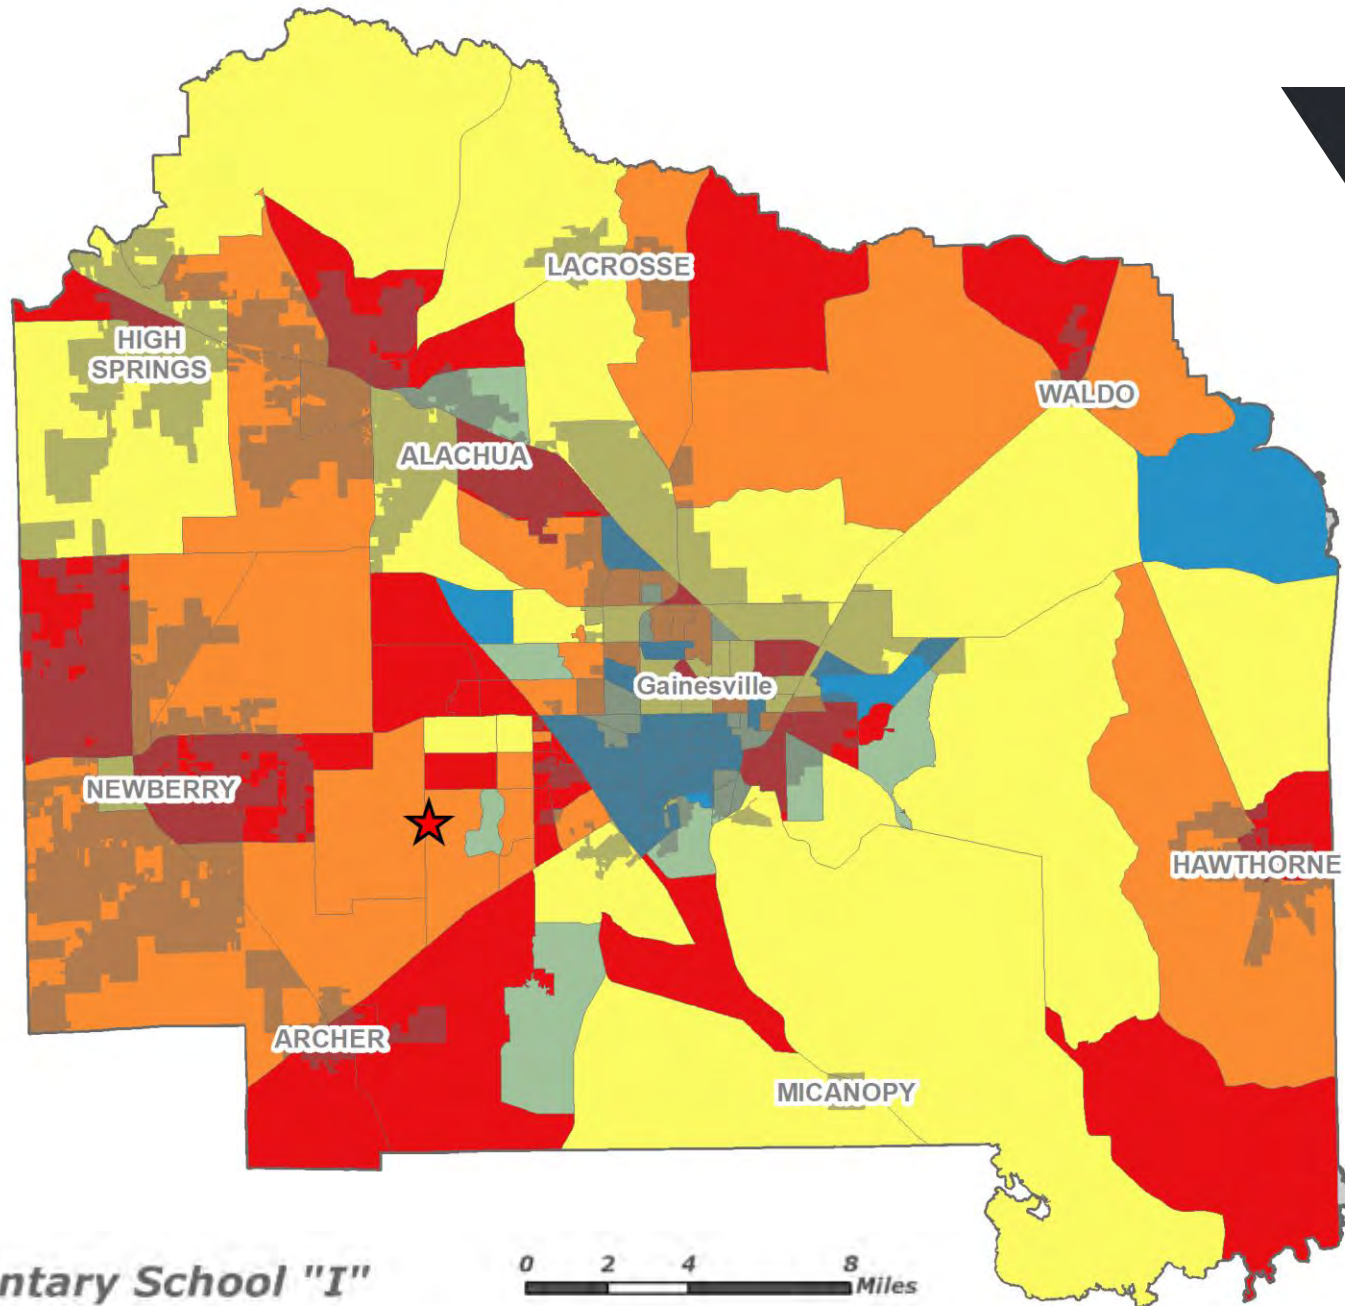

# Elementary School “I” Overview

- Up to 900 elementary school children
- Oakmont PD- 18 acres
- Located in Unincorporated Alachua County
- 2017-2018 SPAC site selection

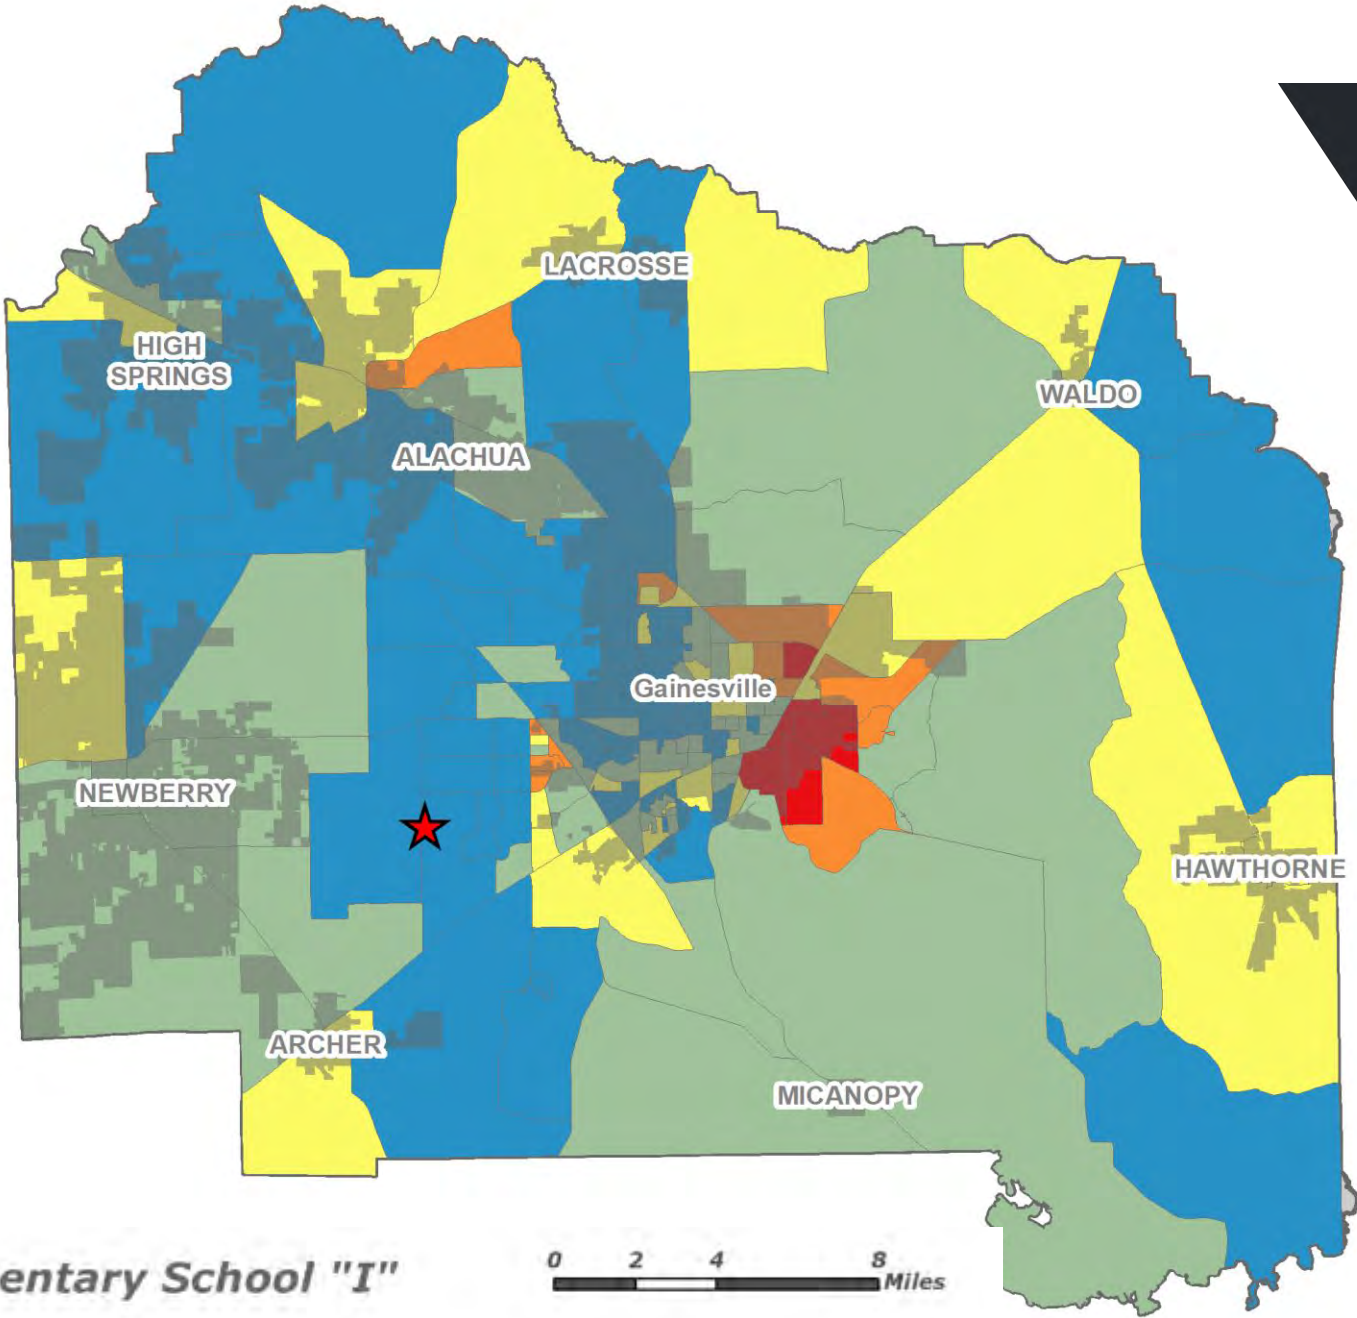

# 2016 ACS Data- Percentage of Population Under 18

★ Elementary School "I"

0 2 4 8 Miles

# 2016 ACS Data-Percentage of Total Population- African-American

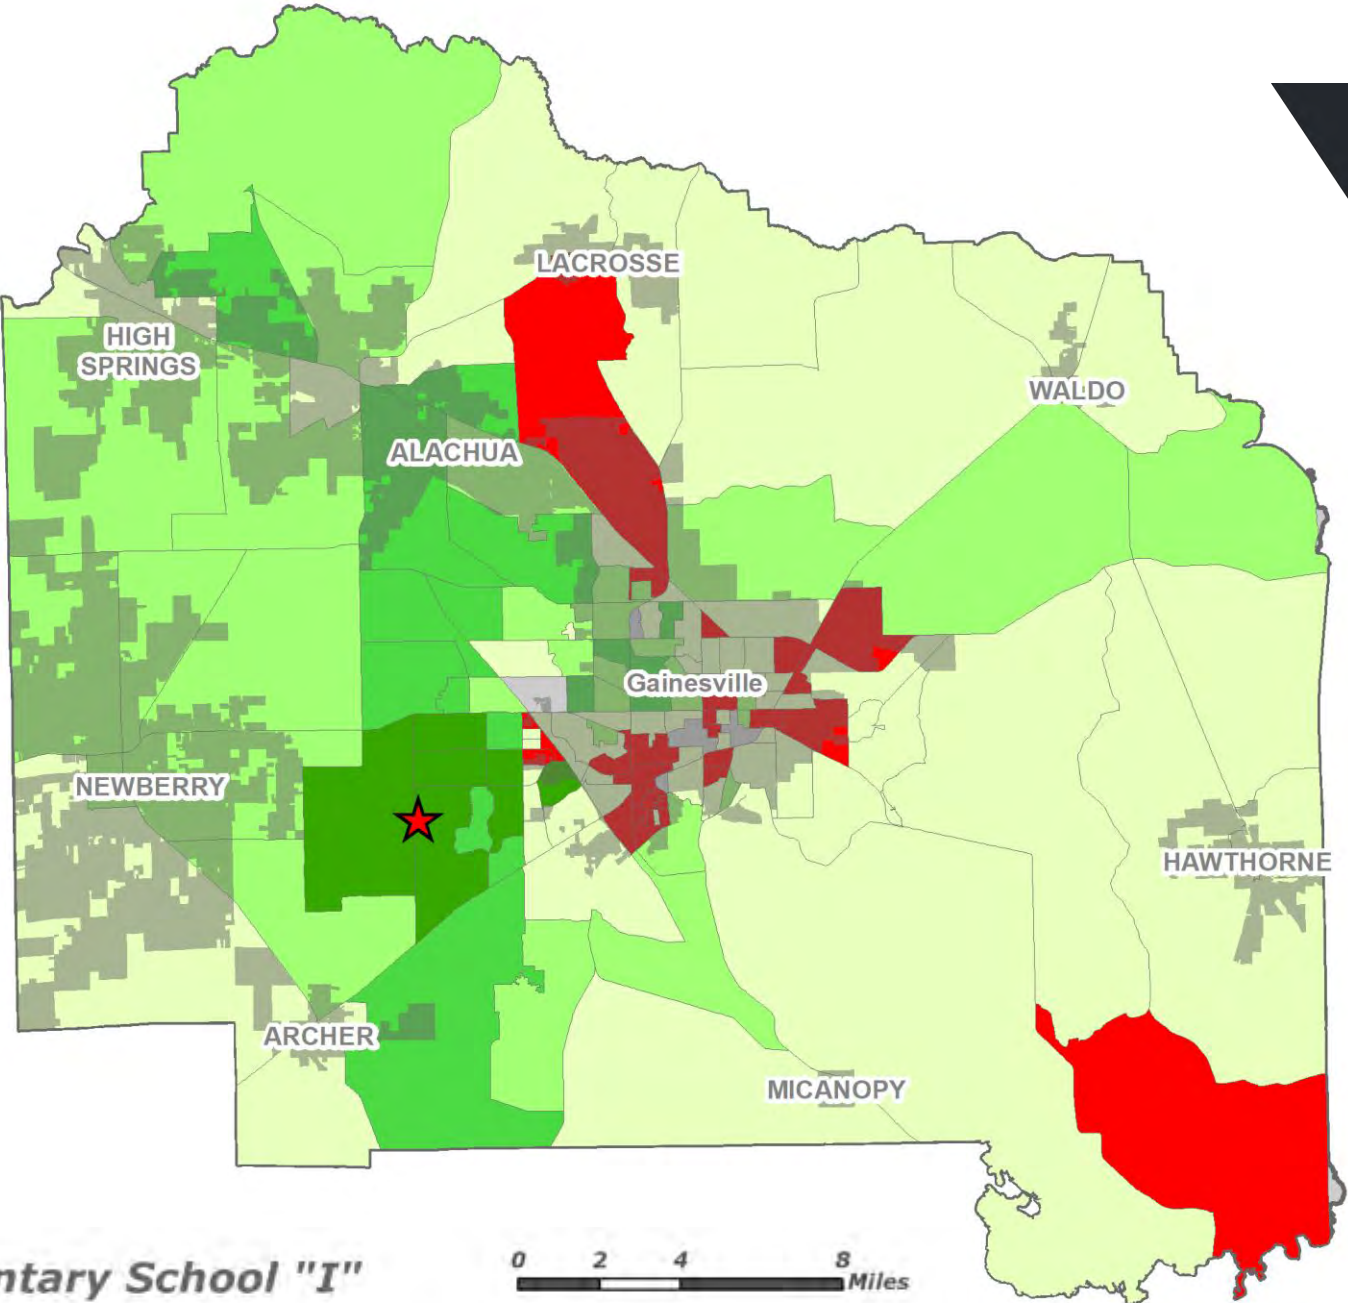

★ Elementary School "I"

0 2 4 8 Miles

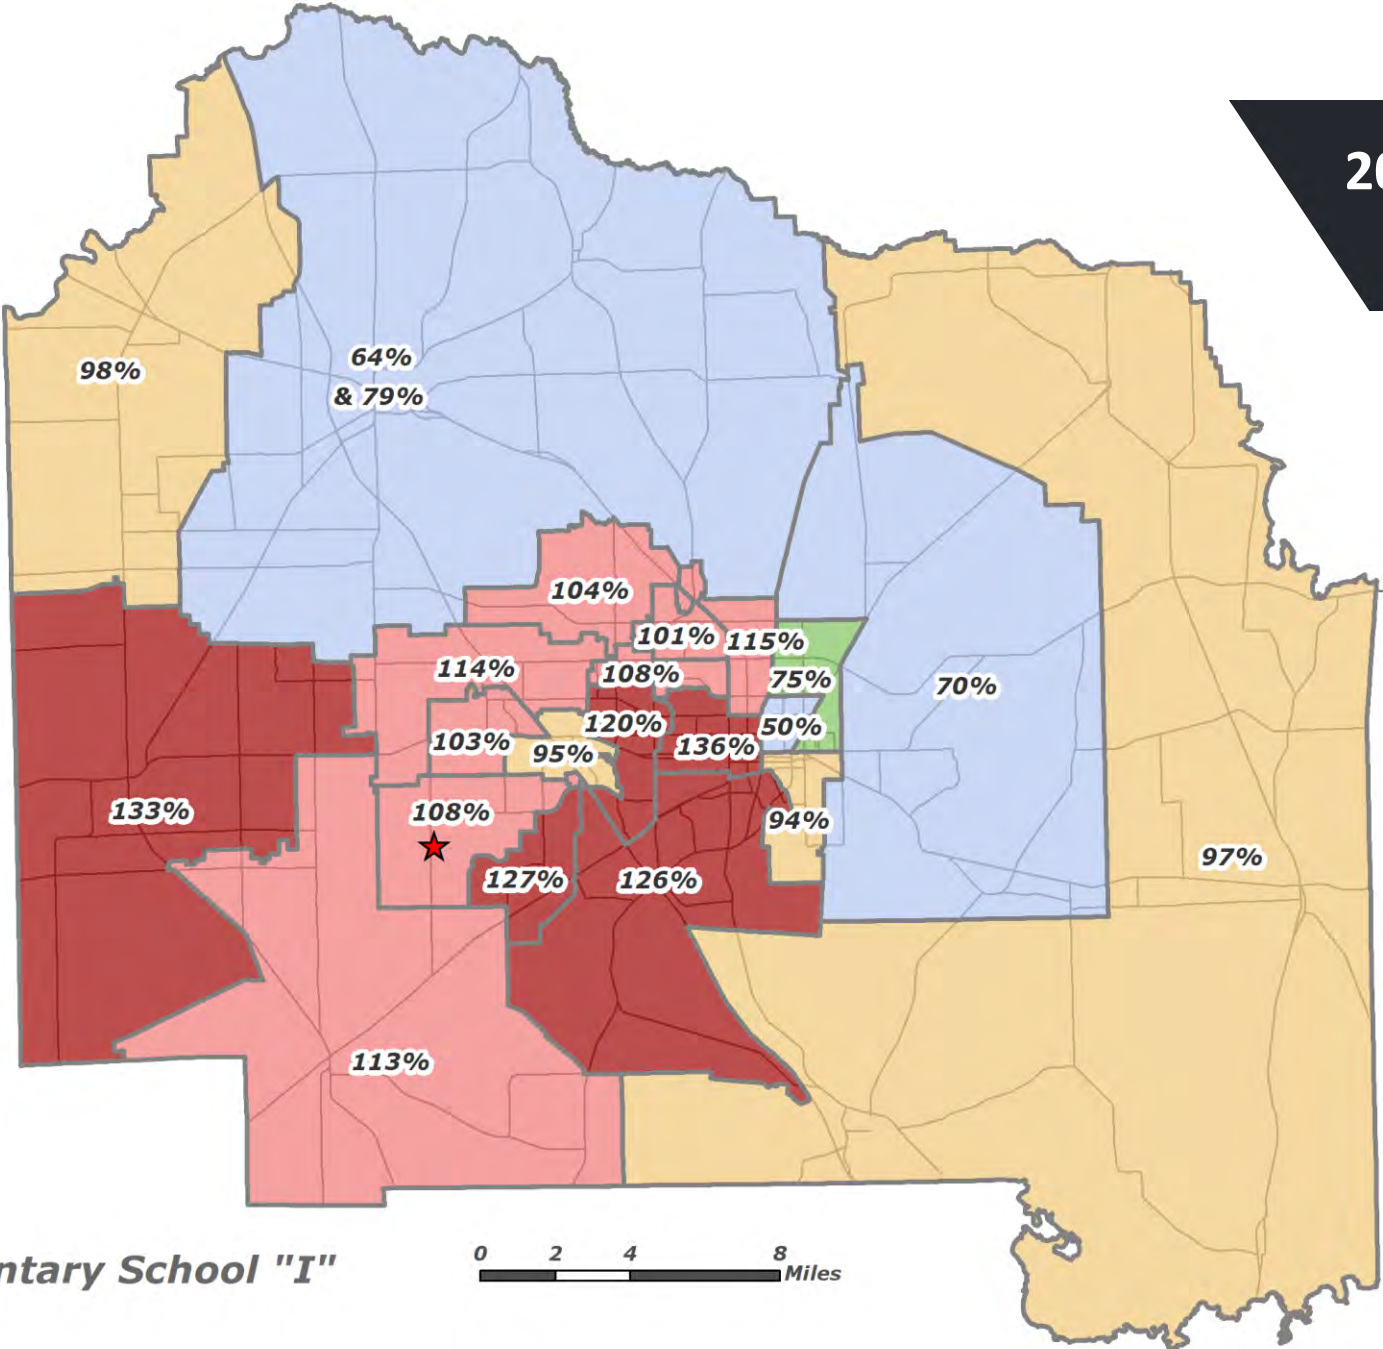

# 2016 ACS Data- Median Income by Household

★ Elementary School "I"

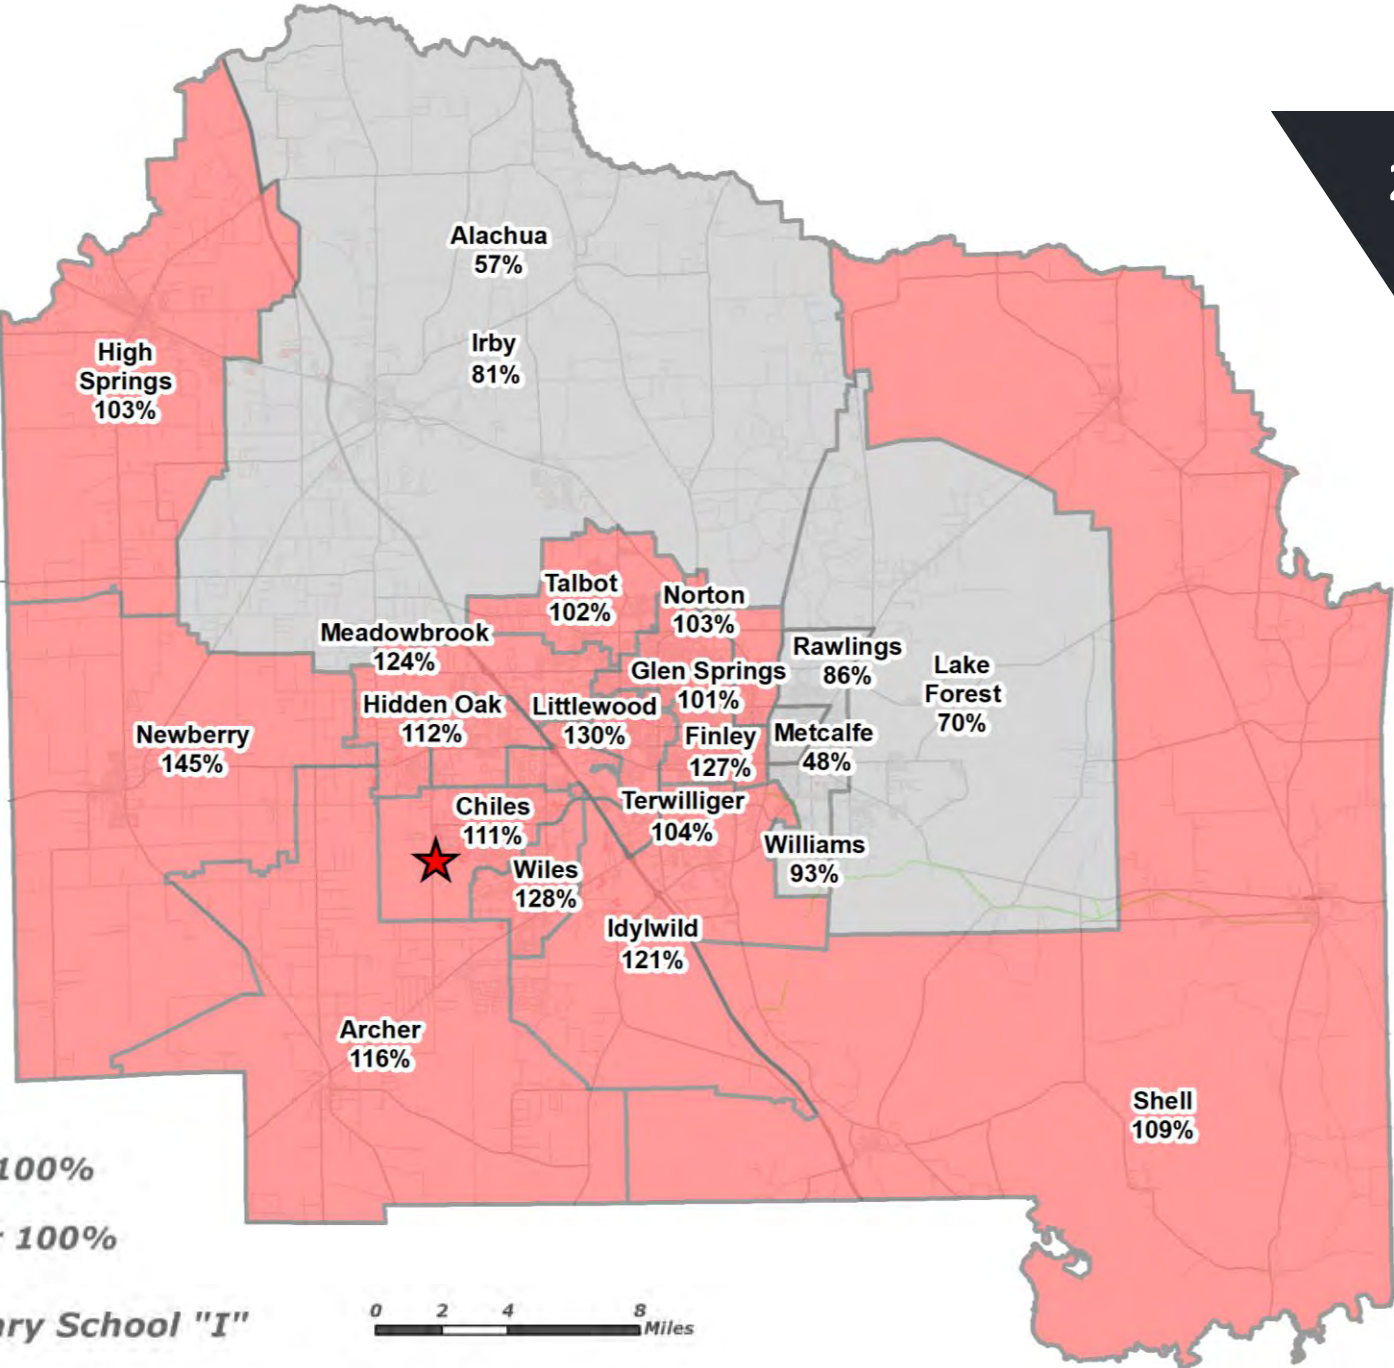

# 2019 Capacity Versus Enrollment for Elementary Schools

# 2020 Capacity Versus Enrollment for Elementary Schools

Over 100%

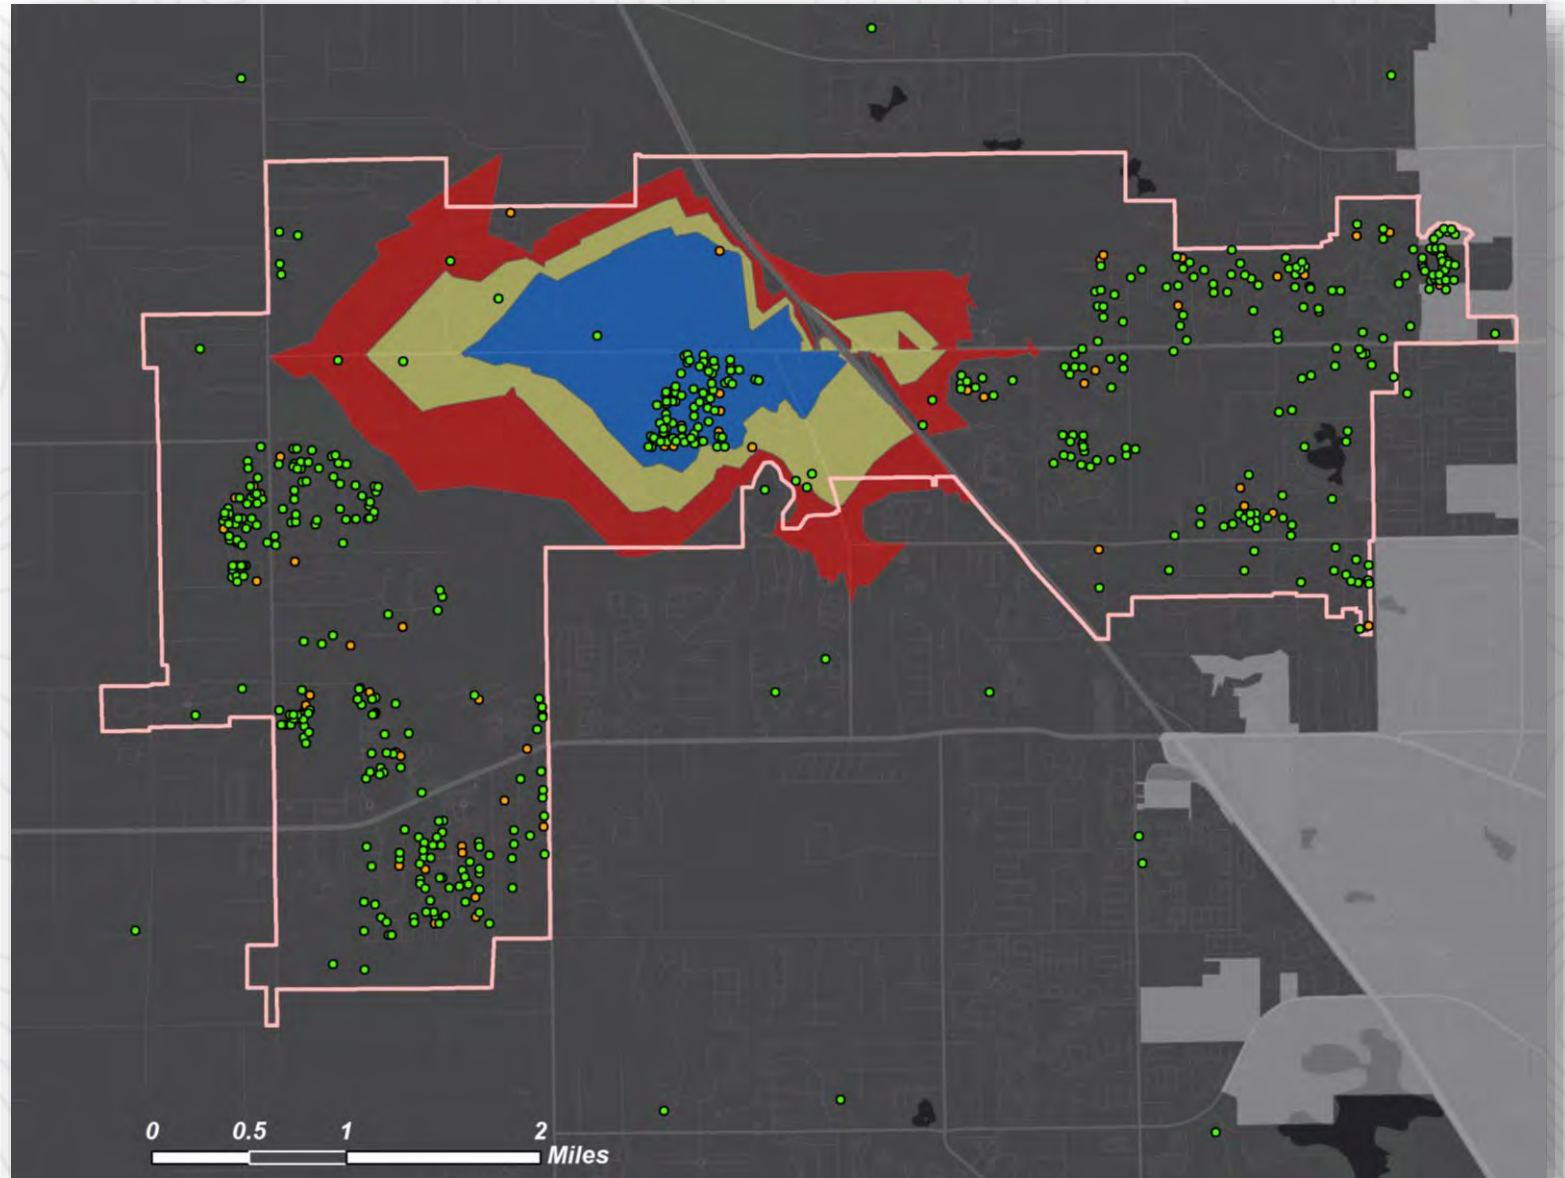

Under 100%

★ Elementary School "I"

# 936 Zoned for Meadowbrook Elementary if all students attended

# 1108 Zoned for Idylwild Elementary if all students attended

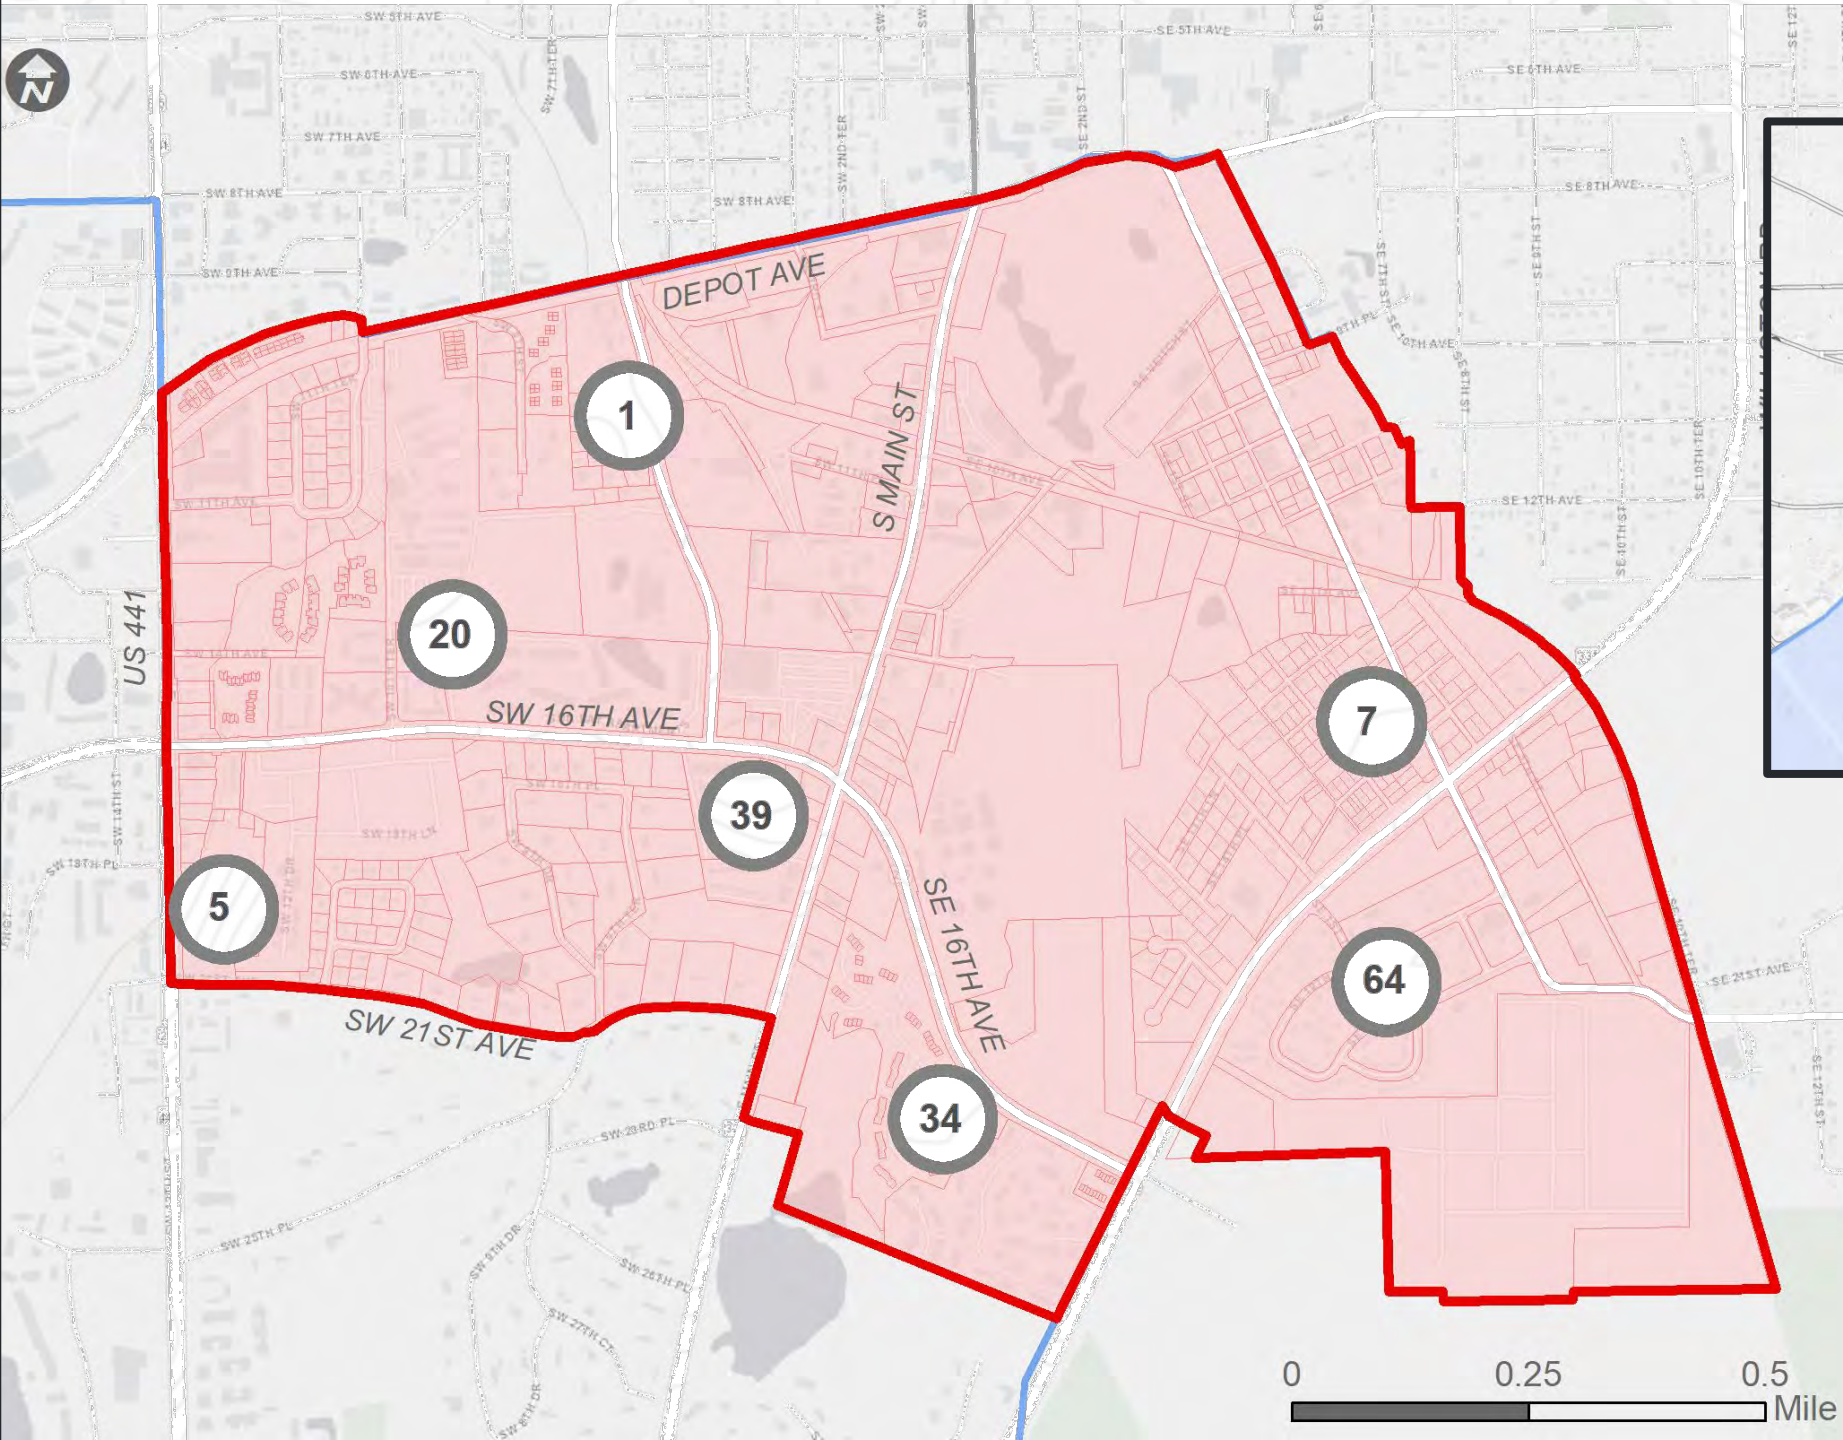

## Idylwild Elementary Spot Rezoning

- Recent spot rezone of over 130+ students from Idylwild Elementary
- Rapid Timeline and Rule-Making Process
- Needed to complete ahead of magnet registration

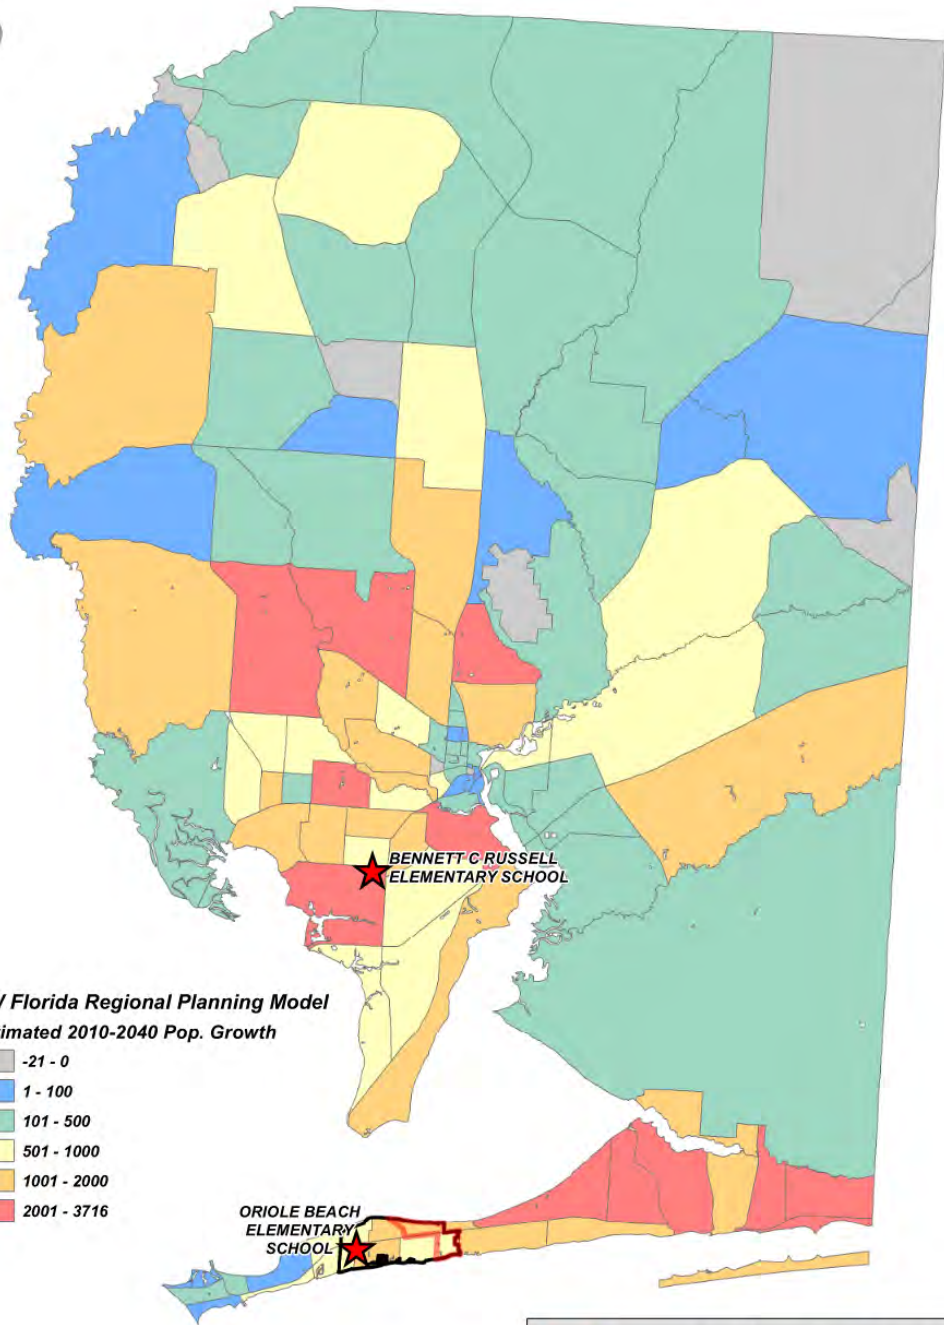

**170 Students Pre-K  
Through 3<sup>rd</sup> Grade  
Were Rezoned to  
the New Metcalfe  
Elementary School**

# 2021 ESE Students and Summer Program Provider Capacity

Alachua County, FL

**Orange County**

Percentage Hispanic

- 0-49% (not shown)
- 50-74%
- 75-100%

Percentage Black

- 0-49% (not shown)
- 50-74%
- 75-100%

- Med. Income <\$40k
- Business Districts

# Higher Education

- Large campuses with specific needs and events
- Constant construction, renovation, and maintenance
- Campus communication is key
  - Who are your stakeholders?
    - Housing, Research, Athletics, Vendors, Facilities, Utilities, Transportation, etc.
    - Students and Faculty
    - Consultants

# Standardization

- Consultant data is key offender
- Campus reference network
- CAD/GIS standards for submittals
- Authoritative data

# BIM and Space Planning

- Design from your desired outcome
  - Level of detail needed
  - Level of standards required
- Reporting requirements are key
- Georeferenced to Horizontal/Vertical
- National BIM Standard-U.S. (NBIMS-US)

# Work Order Management

- Software can dovetail or divide for campuses
- SaaS requires adaptability and interdependency
  - Exports, Extracts, & Efficiency
  - Emergency Management
- Interfaces come and go, relational databases are your foundation
- Enterprise solutions & eager expectations

# Utilities

- Disparate datasets to different deliverables
  - CAD, Bentley, 3D Design, PDF, Tabular
  - Surveyors, Engineers, Architects, PMs, Lawyers
- Vertical and horizontal coordination
- WMD, USACE, DEP, FDOT Permitting
- Encroachment and setbacks

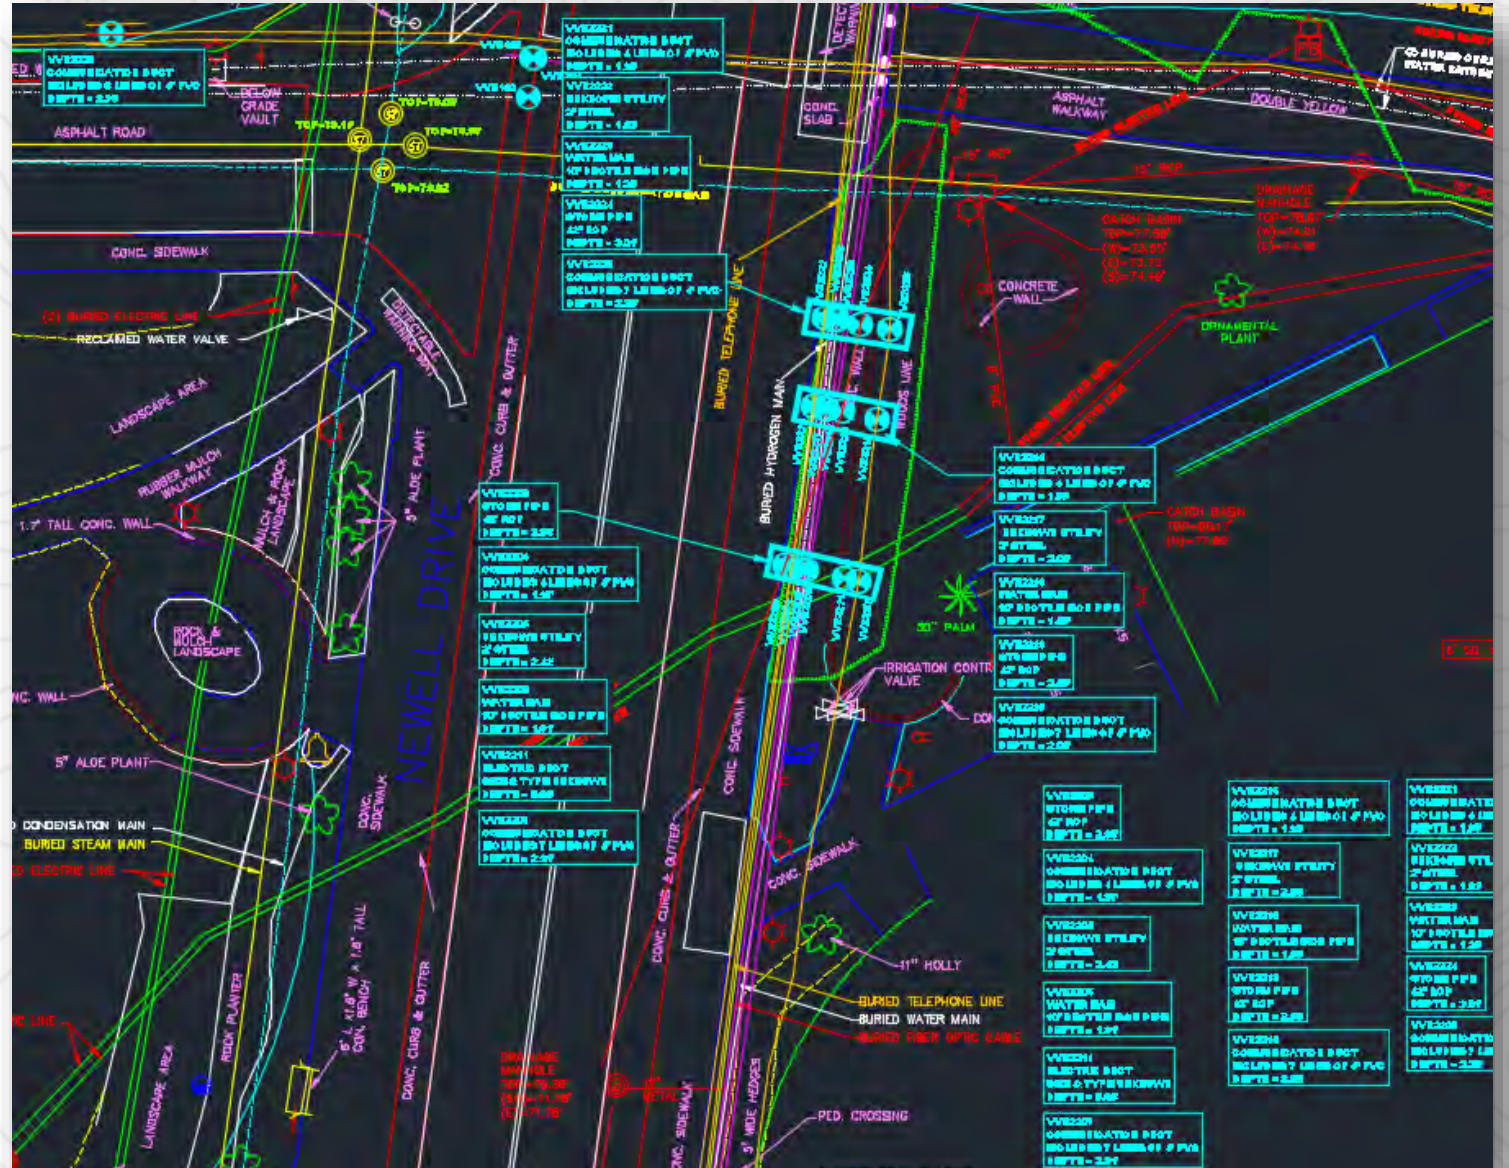

# University of Florida

- ArcGIS Online (AGO) and Portal
- CAD/GIS Integration of 12 utilities
- Campus wide CCTV Sanitary
- Easement and Master Plan
- Field Collection /System Architecture
- LiDAR mapping efforts underway

# University of South Florida

- AGO, ArcGIS Server, & Portal
- CAD/GIS Integration of 6 utilities
- Campus wide field inventories for Sanitary and Stormwater Systems
- Campus wide aerial LiDAR
- Campus reference network
- Campus Art Web mapping
